TIMBER GUARD

Woolube Timber Guard	Product Code
5 Litre Jerry	OZTG5L
20 Litre Cube	OZTG20L
200 Litre Drum	OZTG200L

Woolube Timber Guard is a naturally superior environmentally safe lanolin based coating for protecting timber furniture, timber decking, jetties, piers, boardwalks and many other timber structures.
Woolube Timber Guard is a non-toxic, biodegradable and easily applied with spraying equipment. Ideal for applications where timber needs protection in environmentally sensitive areas and waterfronts.

WIRE ROPE LUBRICANT

Wire Rope Lube	Product Code
20 Litre Cube	OZWRL20L
200 Litre Drum	OZWRL200L

Woolube Wire Rope Lubricant is designed to penetrate to the rope core to reduce friction enabling wire ropes to run smoothly while coating the wire rope with lanolin to inhibit corrosion.
Woolube Wire Rope Lanolin based lubricants are thinner, clearer, and less prone to solidify than heavy lubricants. In addition, they are effective when applied in light coatings and suitable for use in continuous automatic lubrication systems.
A coating of Lanolin lubricant seals the wire surfaces from the atmosphere, reducing corrosion and rusting.

CITRA BLITZ

Citra Blitz Cleaner/ Degreaser	Product Code
300gm Aerosol	CB300C
750ml Trigger Bottle	CB750mL
5 Litre Jerry	CB5L
20 Litre cube	CB20L
200 Litre Drum	CB200L

Woolube Citra Blitz is a powerful, fast acting natural degreaser ideal for removal of glues, fats, grease, bitumen, oils, waxes and carbon deposits.

Woolube Citra Blitz provides superior cleaning for stainless steel, aluminium and is the preferred product for removal of Woolube Lanolin products.

LANOLIN RELEASE AGENTS

Lanolin Release Agent - Concentrate	Product Code
3 Litre Jerry	LRAC3L
5 Litre Jerry	LRAC5L
20 Litre Cube	LRAC20L
200 Litre Drum	LRAC200L

Lanolin Release Agent - Premixed	Product Code
20 Litre Cube	LRAP20L
200 Litre Drum	LRAP200L

Woolube Lanolin release Agents form a liquid coating designed for use as a mould release agent on formwork surfaces in a concentrated or pre-mixed option.
Suitable for steel, timber, plywood, PVC, rubber, polypropylene, plastic & fibreglass.
Woolube release agents provide a clean positive release, does not interfere with the surface detail, and prolongs timber formwork.
Ideal for construction sites in environmentally sensitive areas and as protective barrier for concrete forming and pumping equipment.

LANOLIN PRODUCTS

✓ PROTECTS ✓ PENETRATES
✓ LUBRICATES ✓ DISPLACES

ECO Friendly

"NATURALLY SUPERIOR"

AUSTRALIAN MADE

Woolube products have been designed by nature and rigorously tested for centuries. For many centuries ancient European warriors and mariners used Lanolin from wool grease to protect and lubricate their weaponry, leather and timber tools.

Woolube protective compounds incorporate anhydrous lanolin in a special combination of extremely efficient non-toxic corrosion inhibitors, penetrants and conditioning agents providing long term protection of all types of metals against rust acids, alkalines and salts.

Woolube products never evaporate or completely harden. Instead, Woolube forms a surface skin when exposed to air or water and remains soft in contact with metals – providing a non-stop "reservoir" of active anti – corrosion inhibitors.

Woolube grease and lubricants are food grade approved and have dielectric capabilities for contact with electrical circuits.

This natural, non-toxic product has virtually limitless applications.

Applications include:

- Metal fabrication
- Welding anti-splatter
- Leather protector
- Chain lubricant
- Marine equipment protection
- Irrigation plant and pipes
- Chains, gears and pulleys
- Marine environments
- Auto rustproofing
- Door mechanisms and locks
- Anti-seize coating
- Timber preservation

LANOLIN GREASE

Woolube Lanolin grease is a thick, tacky grease with high load capabilities that will not wash out under most conditions, from underwater to general use.
For heavier protection or rejuvenation, melt and apply with a paint brush.
Woolube Lanolin Grease will provide excellent results as an anti-corrosive, thread anti-seize and lubricant.

Woolube Grease	Product Code
300ml Tub	WG300T
450ml Grease Gun Cartridge	WG450C
1 Litre Tub	WG1
20 Litre Pail	WG20
200 Litre Drum	WG200

WOOLUBE GENERAL PURPOSE

Woolube Ozspray General Purpose is a sprayable form of Woolube Grease which dries to a fine grease film offering the same characteristics as the grease as well as providing an excellent fluid displacement, penetrant and lubricant in one multi-purpose.

Ozspray General Purpose	Product Code
60gm mini Aerosol	OZ60C
300gm Aerosol	OZ300C
750ml Trigger Bottle	OZ750mL
5 Litre Jerry	OZ5L
20 Litre Cube	OZ20L
200 Litre Drum	OZ200L

OZSPRAY HEAVY DUTY

Woolube Ozspray Heavy Duty is a thick sprayable form of Woolube grease which dries to a heavy duty grease film with the same characteristics as the grease for more robust applications as well as providing an excellent fluid displacement, penetrant and lubricant in one multi-purpose product.

Ozspray Heavy Duty	Product Code
300gm Aerosol	OZE300C
750ml Trigger Bottle	OZE750mL
5 Litre Jerry	OZE5L
20 Litre Cube	OZE20L
200 Litre Drum	OZE200L

OZSEAL CORROSION PROTECTOR

Woolube Ozseal is a high-performance lanolin fluid film that forms a low tack coating to resist dust build up while forming a moisture tight seal around substrates that will resist alkali, acid, atmospheric moisture, and salt corrosion.
Woolube Ozseal is highly robust and when dry will not flake or chip and retains its elasticity making it suitable for car underbodies as a corrosion protector.
Non-Conductive to 40kV.

Ozseal Corrosion Protector	Product Code
300gm Aerosol	OS300C
750ml Trigger Bottle	OS750mL
5 Litre Jerry	OS5L
20 Litre Cube	OS20L
200 Litre Drum	OS200L
